

Heatmap showing the expression of MB-AM, MB-PM, MB-AL, and MB-AM_M genes across 20 samples. The samples are grouped into three clusters: MB-AM (samples 1-10), MB-PM (samples 11-15), and MB-AL (samples 16-20). The heatmap shows that MB-AM genes are highly expressed in the MB-AM cluster, MB-PM genes are highly expressed in the MB-PM cluster, and MB-AL genes are highly expressed in the MB-AL cluster. The MB-AM_M gene is expressed in all clusters.
