

A phylogenetic tree diagram showing the evolutionary relationships between five samples. The tree has a root at the bottom left, branching upwards. The first major branch leads to MB-PM_McM. The second major branch leads to a clade containing MB-AM_McM, MB-PM_McM, MB-AL_McM, and MB-AL_McM. Within this clade, MB-AM_McM and MB-PM_McM are sister taxa, and MB-AL_McM and MB-AL_McM are sister taxa.

Sample	MB-PM_McM	MB-AM_McM	MB-PM_McM	MB-AL_McM	MB-AL_McM
MB-PM_McM					
MB-AM_McM					
MB-PM_McM					
MB-AL_McM					
MB-AL_McM
