

Heatmap showing the relationship between 19 variables (0-19) and two models, MB and MB. The MB model shows a strong positive correlation with variables 0-8 and 10-12, and a strong negative correlation with variables 13-19. The MB model shows a strong positive correlation with variables 0-8 and 10-12, and a strong negative correlation with variables 13-19.
