

Heatmap showing the relative abundance of four metabolites (MB-PM, MB-AL, MB-AL, MB-AM) across four samples. The color scale ranges from red (high abundance) to blue (low abundance).

Metabolite	Sample 1	Sample 2	Sample 3	Sample 4
MB-PM _{MC}	High	High	High	Low
MB-AL _{MC}	High	High	High	Low
MB-AL _{MC}	High	High	High	Low
MB-AM _{MC}	High	High	High	Low
