

Heatmap showing the correlation of MB-PL, MB-AL, MB-PM, and MB-AM methods across 8 samples (0-7). The color scale ranges from blue (low correlation) to red (high correlation). MB-PL and MB-AL show high correlation with each other and low with others. MB-PM and MB-AM show high correlation with each other and low with others. MB-PL and MB-PM show moderate correlation. MB-AL and MB-AM show moderate correlation. The dendrogram on the left shows the hierarchical clustering of the methods.
